

The Federal Communications Commission

Dear The Federal Communications Commission,

Under this change in regulations I would be subsidizing the very people I do not want to call me, the telemarketers. Those who would use this service all day long, with 100's of calls would pay the same as me who only uses this service for security, safety and rarely. This would be anything but fair.

It would also put the use of this service at risk for those of us like me. What do you do when the little guy simply leaves the field of play then? Where will your money come from then?

Keep the USF Fair!

Steve Wiser 4225 Gloucestershire St Richmond, Va 23236

Sincerely,

Steven Wiser
